PROFESSIONAL SUMMARY

A second-year student at APU pursuing a Bachelor of Science in Software Engineering, with a strong interest and foundational skills in front-end web development. I am eager to apply my academic knowledge of HTML, CSS, and React to a professional environment. I am highly motivated to learn and contribute to a team, with the goal of building intuitive and visually appealing user interfaces.

EXPERIENCE

Part Time Promoter	
2024 - 2025	• Reinforced brand messaging by consistently emphasising unique selling points during interactions. • Stimulated sales growth by creating and executing in-store promotional events. • Improved sales performance by implementing effective upselling techniques during promotions.
Front Desk and Dental Assistant	
2023 - 2024	• Managed patient flow and appointment scheduling using the Kumodent system • Developed strong organizational skills by accurately managing patient records, billing, and insurance claims with a focus on confidentiality • Demonstrated multitasking abilities by supporting the dental team while also handling front desk responsibilities in a fast-paced environment

EDUCATION

Bachelor of Science (Hons) Software Engineering	
2024 - 2027	Key Modules: Databases, Networking, Programming in Python, Web Design, Programming for Data Analytics, Object-Oriented Development with Java, Mobile App Engineering, Software Testing, and Data Structures (C++)
Foundation Degree in Science , IT

AWARDS & ACHIEVEMENTS

- Finalist, Sustainability Hackathon | June 2025, Developed "Aqua Tofu," an innovative water detection system, Participant, DEV Match Hackathon | August 2025, Created a gamified study platform featuring NFTs | August 2025 AWS Great AI Hackathon
- Awarded a certificate for my contribution as a peer leader, and maintained a strong academic standing with a CGPA of 4.0

Projects

FoodieBox Mobile Application	
Flutter, Dart, Firebase, UI/UX	
• Designed and implemented user interfaces for browsing food items, viewing details, placing orders, and tracking order status. • Integrated user authentication and session handling to support secure login and personalized user experiences.	
Automated Purchase Order Management System (OWSB)	
Java, Java Swing, MVC Purchase Manager	
• Developed the Purchase Manager module using Java Swing and MVC architecture. • Implemented dashboards and forms for managing items, suppliers, and purchase orders. • Built a Create Purchase Order feature with auto-generated IDs and file-based storage.	
Retail Transactional Data Analysis and Ratings Classification	
R, Data Analysis, Visualization	
• Cleaned and analyzed retail transaction data using R. • Built visualizations to identify customer behavior and product trends. • Performed ratings classification and handled data imbalance.
